Informed Consent Form

Dear Participant,

thank you for your participation in the study.   *CO 6*
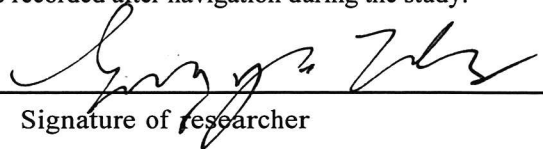

In this study, you'll be asked to perform certain tasks wearing Microsoft HoloLens and to answer some questions. The whole process will take around 30-60 minutes. You are free to stop, quit the study and retract your data at any time during the study with no further consequences. **Privacy:** Original data obtained from this study will be anonymized and only processed in aggregate. In such form, it might be published in academic journals, presentations or other media, but never in a way that would allow individual identification. One week after the study it might no longer be possible to retract your data from such aggregated analyses.

If you have any questions, please contact Jiongyan Zhang via jiongyan.zhang@tum.de.

☒ I confirm I volunteered to participate in this study.

☒ I confirm I was allowed to ask questions and that I was provided with responses.

☒ I confirm I was presented with this document prior to the beginning of the study.

☒ I confirm and I understood my right to quit the study at any time.

☒ I confirm I was informed that a conversation with researcher will be recorded after navigation during the study.

Pre-task questionnaire

Gender: ☒Male ☐Female ☐Other   Nationality: *Chinese*   Age: 25

Field you are working/studying in: *Remote Sensing*

This questionnaire consists of several statements about your spatial and navigational abilities, preferences, and experiences. After each statement, you should circle a number to indicate your level of agreement with the statement. Circle "1" if you strongly agree that the statement applies to you, "7" if you strongly disagree, or some number in between if your agreement is intermediate. Circle "4" if you neither agree nor disagree.

1= strongly agree / none, 7 = strongly disagree / a lot of

#	Statement									
1	I am very good at giving directions.	strongly agree	1	2	③	4	5	6	7	strongly disagree
2	I have a poor memory for where I left things.	strongly agree	①	2	3	4	5	6	7	strongly disagree
3	I am very good at judging distances.	strongly agree	1	②	3	4	5	6	7	strongly disagree
4	My "sense of direction" is very good.	strongly agree	1	2	③	4	5	6	7	strongly disagree
5	I tend to think of my environment in terms of cardinal directions(N, S, E, W).	strongly agree	①	2	3	4	5	6	7	strongly disagree
6	I very easily get lost in a new city.	strongly agree	1	2	3	4	5	⑥	7	strongly disagree
7	I enjoy reading maps.	strongly agree	①	2	3	4	5	6	7	strongly disagree
8	I have trouble understanding directions.	strongly agree	1	2	3	4	5	⑥	7	strongly disagree
9	I am very good at reading maps.	strongly agree	1	②	3	4	5	6	7	strongly disagree
10	I don't remember routes very well while riding as a passenger in a car.	strongly agree	①	2	3	4	5	6	7	strongly disagree
11	I don't enjoy giving directions.	strongly agree	1	2	3	4	5	6	⑦	strongly disagree
12	It's not important to me to know where I am.	strongly agree	1	2	3	4	5	6	⑦	strongly disagree
13	I usually let someone else do the navigational planning for long trips.	strongly agree	1	2	3	4	5	6	⑦	strongly disagree
14	I can usually remember a new route after I have traveled it only once.	strongly agree	1	2	3	4	⑤	6	7	strongly disagree
15	I don't have a very good "mental map" of my environment.	strongly agree	1	2	③	4	5	6	7	strongly disagree
16	I usually get lost indoors.	strongly agree	1	②	3	4	5	6	7	strongly disagree
17	I usually get lost outdoors.	strongly agree	1	2	3	4	5	⑥	7	strongly disagree
18	I have __ experience with Augmented Reality.	ⓝone	1	2	3	4	5	6	7	a lot of
19	I have __ experience with Virtual Reality.	none	①	2	3	4	5	6	7	a lot of

TASK1: Please draw and label all the spatial information you remember, including rooms, room names, stereoscopes, fire distinguisher, garbage can and anything else you can recall.
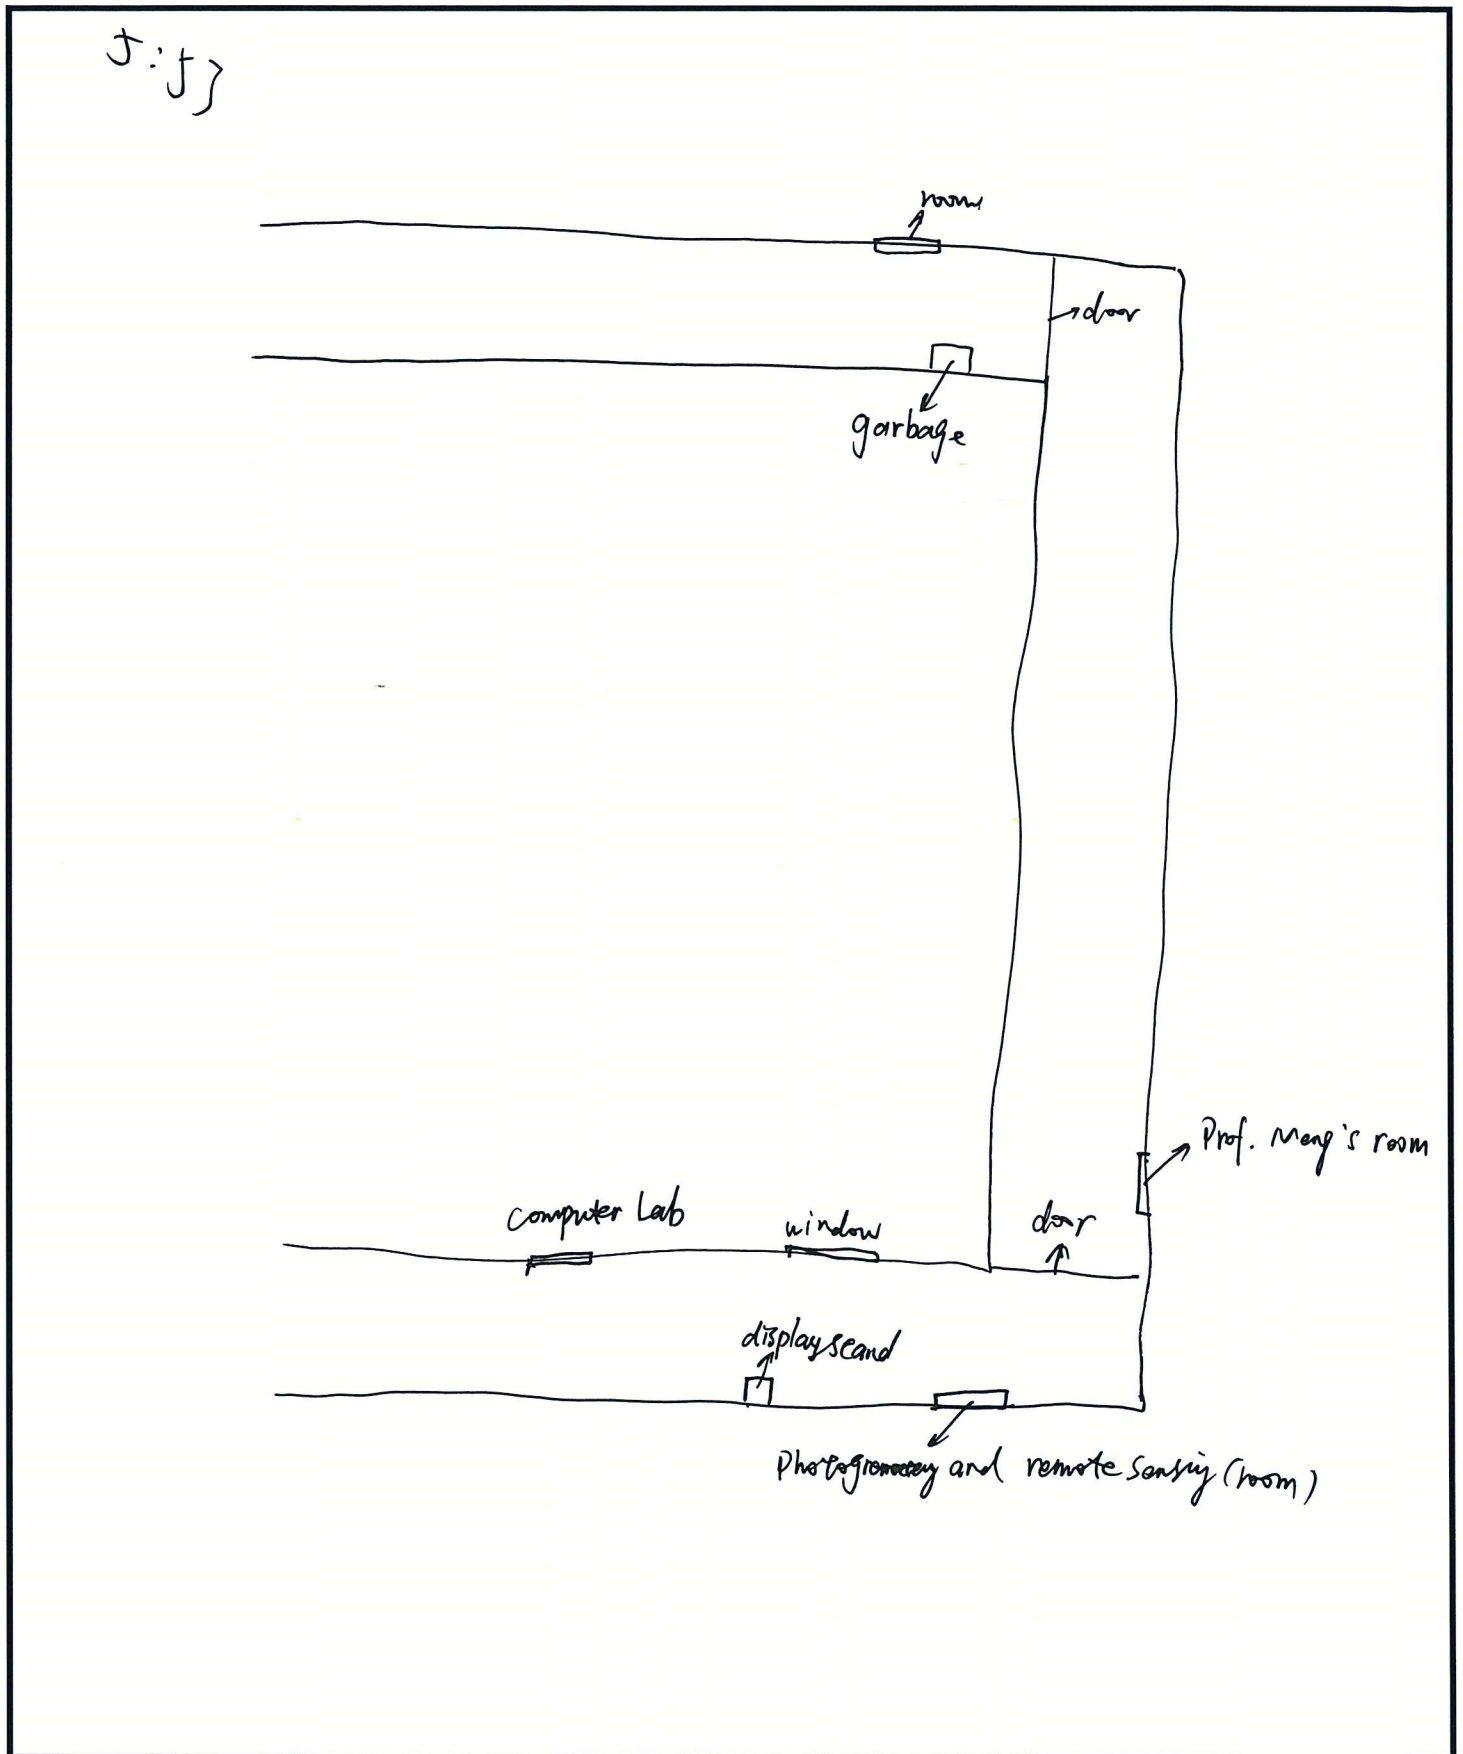

TASK 2: Please complete the following questionnaire ("1" = not at all, "7" = very much).

COLORS stands for the color of landmarks including transparency, LABELS stands for the label text and icon, LANDMARKS stands for the shape, position and orientation etc.

1. Before this walking, how familiar were you with the study area?

    not at all   1   2   ③   4   5   6   7   very much

2. How do you like the device/hardware?

    not at all   1   2   3   4   5   ⑥   7   very much

3. How do you like the interface?

    not at all   1   2   3   4   ⑤   6   7   very much

4. How do you like each element you saw?

Colors	not at all	1	2	3	④	5	6	7	very much
Labels	not at all	1	2	3	4	⑤	6	7	very much
Landmarks	not at all	1	2	3	4	⑤	6	7	very much

5. How do you think each element helps you remember the area?

Colors	not at all	1	2	3	④	5	6	7	very much
Labels	not at all	1	2	3	4	⑤	6	7	very much
Landmarks	not at all	1	2	3	4	5	⑥	7	very much

6. How do you think each element helps you locate your position?

Colors	not at all	1	②	3	4	5	6	7	very much
Labels	not at all	1	2	③	4	5	6	7	very much
Landmarks	not at all	1	2	3	4	⑤	6	7	very much

7. How do you think each element helps you identify your orientation?

Colors	not at all	1	②	3	4	5	6	7	very much
Labels	not at all	1	②	3	4	5	6	7	very much
Landmarks	not at all	1	②	3	4	5	6	7	very much

8. How do you think of the spatial information overload in this system?

    not at all   ①   2   3   4   5   6   7   very severe

9. Do you think the landmark design has a certain sense of hierarchy and classification?

    not at all   1   ②   3   4   5   6   7   very much

10. Do you think this kind of sense of hierarchy and classification assists you to remember the space?

    not at all   1   2   3   ④   5   6   7   very much

11. To what extent does the landmark design help you to judge the distance between landmarks?

        not at all   1   2   3   4   (5)   6   7   very much

12. To what extent does the landmark interfere with your eyesight?

        not at all   (1)   2   3   4   5   6   7   very much

13. To what extent does the landmark interfere with your observation to the real world?

        not at all   1   (2)   3   4   5   6   7   very much

14. To what extent does the design help you with understanding the local spatial layout?

        not at all   1   2   (3)   4   5   6   7   very much

15. Please compare your preference between AR and map: which help you understand the indoor space more?

Map   not at all   1   2   (3)   4   5   6   7   very much

AR   not at all   1   2   3   4   (5)   6   7   very much

TASK 3: Just imagine there is a fire alarm, and you need to extinguish a controllable fire: where do you think you could find the fire extinguisher?
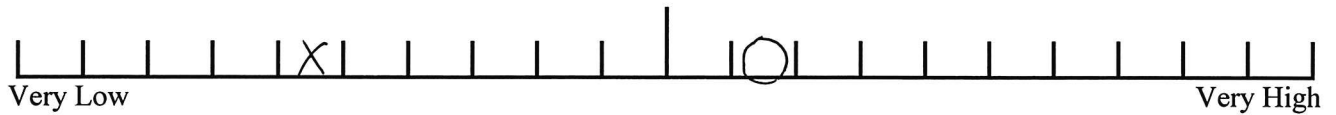

X

Legends

Space

Stairs

Start Point
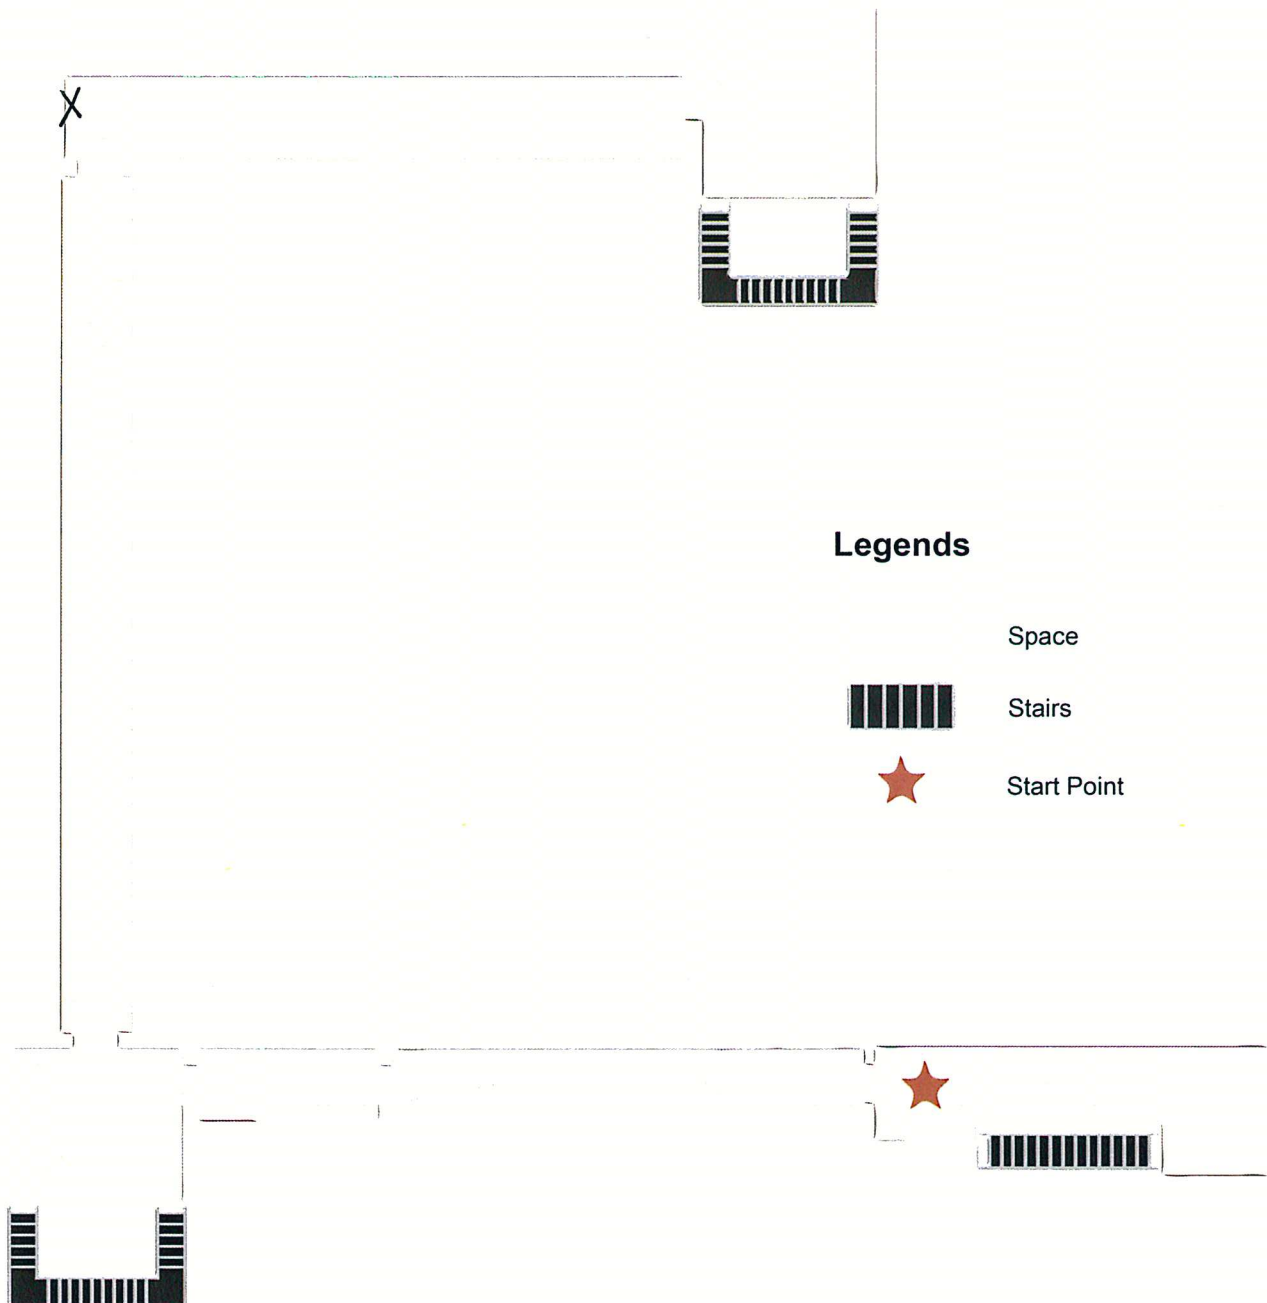

NASA Task Load Index

Hart and Staveland's NASA Task Load Index (TLX) method assesses workload on five 7-points scales. Increments of high, medium and low estimates for each point result in 21 gradations on the scales.
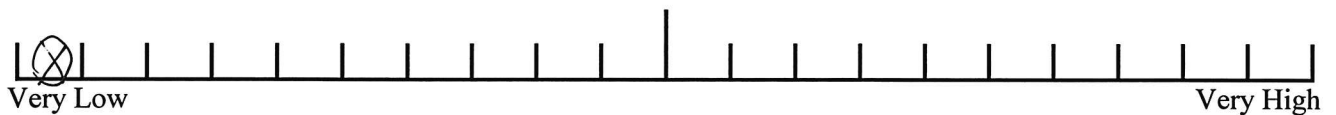

1. Mental Demand: How mentally demanding was the task?

Very Low   Very High

2. Physical Demand: How physically demanding was the task?
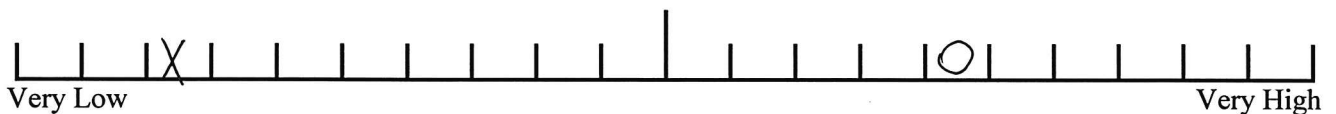

Very Low   Very High
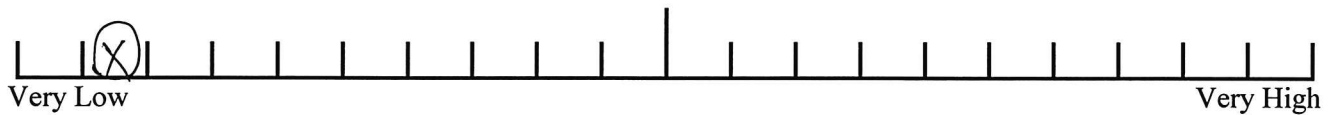

3. Temporal Demand: how hurried and rushed was the pace of the task?
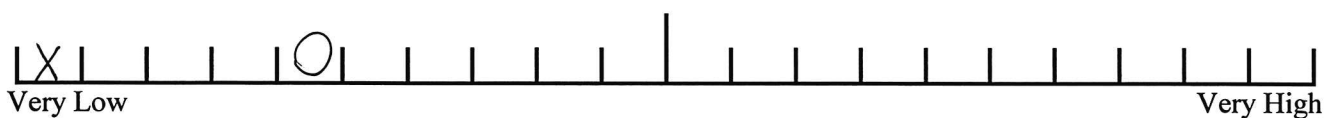

Very Low   Very High

4. Performance: How successful were you in accomplishing what you were asked to do?

Perfect   Failure

5. Effort: How hard did you have to work to accomplish your level of performance?

Very Low   Very High

6. Frustration: How insecure, discouraged, irritated, stressed, and annoyed were you?
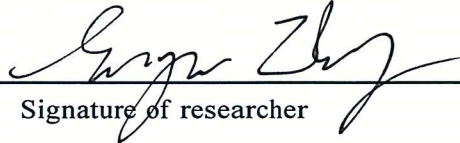

Very Low   Very High

Please confirm the authenticity of data in this document (including pre-task questionnaire, post task questionnaire and task quiz).
